JobSync

JobSync provides your staff with a Sales Force Automation system that is more than just an ordering system, but puts information about customers and your products at their fingertips

- Capture sales orders / activity history from your customers, reported to our html portal in real time, or exported to your sales systems
- Report sales activity and field/sales rep activity in HTML / PDF / export to CVS/XML in seconds, ensuring management have access to latest data
- Can be integrated to your accounts & inventory systems to show current status
- New Web Ordering systems available, ensuring you have a comprehensively accurate, editable and auditable sales order system
- Reduces data errors with accurate sales order data from your entire inventory catalog, with unique user reporting by individual, group, territory & business
- Conduct surveys with your customers about your business, products and service levels

TRANSFORM YOUR BUSINESS OPERATIONS AND SALES ORDERS WITH CONFIGURABLE & EDITABLE SALES FORCE AUTOMATION SYSTEMS, WITH COMPREHENSIVE REPORTING & EXPORT FEATURES

JOB SYNC CAN BE CONFIGURED TO MEET YOUR SPECIFIC BUSINESS AND SALES RULES.
