FORMS

MobileFORMS enables you to quickly & easily transform paper documents into electronic forms on your Smartphone. **QUICK. EASY. AFFORDABLE.** Call us for a **FREE TRIAL.**

- Quickly create electronic form templates as you need them **without** the cost of custom software or additional expense of developing reports
- Quickly create multiple form templates to meet your business needs, with most business forms or paperwork easily replaced by electronic forms
- Signature capture and free-draw available on touch screen devices (WinMo/Android/B'Berry)
- Allows completed forms to be printed, emailed or integrated into your back office applications, and viewed in real time by office support personnel
- Reduces data errors with 18 different data capture field types, each with configurable options and rules to determine how data is captured.
- Forms can be 'free-standing' forms, 'attached' to customers and can be viewed / edited on devices

*TRANSFORM YOUR BUSINESS OPERATIONS AND DATA CAPTURE WITH CONFIGURABLE & EDITABLE MOBILE ELECTRONIC FORMS THAT **YOU** CREATE, DEPLOY AND MANAGE GIVING YOU COMPLETE CONTROL OVER DATA CAPTURE REQUIREMENTS, WITH REAL-TIME VISIBILITY ON YOUR PC AND ADVANCED SEARCH & REPORTING*
